Claims 1-19 are pending in this application.

Claims 16-18, 19 are drawn to non-elected inventions.

### ***Response to Restriction***

The election of group II without traverse, in the Paper filed 4/14/08, is hereby acknowledged. Therefore, claims 1-15, 17 are being examined in part according to the election.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-15, 17 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The claims lack adequate support in the specification. The phraseologies “hydrocarbon group” in every occurrence and “other symbols” in claim 2, line 8, are not defined in the specification such as to ascertain the structures of compounds included and/or excluded by the phrases. The phrases are defined by examples. However, “[e]xemplification is not an explicit definition.” The specification must set forth the definition explicitly and clearly, with reasonable clarity, deliberateness and precision,

Art Unit: 1625

*Teleflex Inc. v. Ficosa North Am Corp.*, 63 USPQ2d 1374, (Fed. Cir. 2002), *Rexnord Corp. v. Laitram Corp.*, 60 USPQ2d 1854 (Fed. Cir. 2001). By replacing the phrase with the examples the rejection would be overcome.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-15, 17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

For reasons set forth above the claims are indefinite. It is not possible to ascertain the metes and bound of the claims.

The structure of "A" is not clear from the following.

wherein A is a group remaining from elimination of hydrogen from a parent compound H-A of a prodrug having a group capable of bonding to a carbon atom of a modification group eliminatable from a prodrug, via a carbon-oxygen bond, a carbon-sulfur bond or a carbon-nitrogen bond, and other symbols are as defined in claim 1, or a salt thereof.

Claims 12-13 as written are confusing and therefore indefinite.

### ***Allowable Subject Matter***

The elected compound, example 2, is found in condition for allowance but claims 1-15, 17 are not allowable for containing non-elected subject matter. The claims would

Art Unit: 1625

be in condition for allowance by limiting them to the elected compound. Claim 16 would be rejoined if amended to avoid above rejections and is within the scope of the elected compound.
